

ABOUT NQZEBRAWORKS

Queues Power Workflows

nQ Zebraworks™ is the workflow engine that drives the business and practice of law. By deeply integrating with your firm's core technology – document management, financial systems, and communication tools – Queues enables attorneys and staff to work with equal productivity from any location, on any device.

THE PRODUCT SUITE

Four Powerful Modules

1 ScanQ

The industry's fastest scanning solution with the most accurate OCR and smallest file sizes. Enterprise MFD functionality on any device – scan, route, annotate and collaborate directly within your workflow, from anywhere.

2 MailQ

A better way to deliver physical mail to attorneys and staff, no matter where they are. Full tracking and accountability without clogging your DMS or email. Delegates and Shared Queues bring new power to your workflows.

3 PrintQ

Enable users to print from anywhere, on any device, while keeping information secure. Reduce wasted paper from abandoned prints with secure release workflows and comprehensive print management analytics.

4 CostQ

Cost recovery and analytics made simple. Industry-leading embedded software that automatically tracks every billable task – printing, scanning, copying – and reconciles directly with your financial management system.

SEAMLESS INTEGRATION

BRINGING IT ALL TOGETHER

The Queue Architecture

Inputs from MFDs, desktop scanners and mobile devices flow intelligently into Attorney and Staff Queues via delegation logic. Documents route seamlessly to DMS, email and accounting systems.

Attorney & Staff Queues with Delegation Logic

WHY NQZEBRAWORKS

Four Key Advantages

Work From Anywhere

Full access to every document, scanning and printing workflow – from any location, on any device. Office, home, or courtroom.

Better Collaboration

Shared Queues give work groups shared access to documents and workflows. Create queues for A/P, A/R, docketing and large cases.

Deep Integration

Connects with all leading DMS platforms and 22 financial management systems. No rekeying. No duplication. Complete data integrity.

MFD In Your Pocket

Every mobile device and desktop scanner gains full enterprise MFD capability – same OCR engine, same workflow, identical results to the office.

HOSTED SOLUTIONS

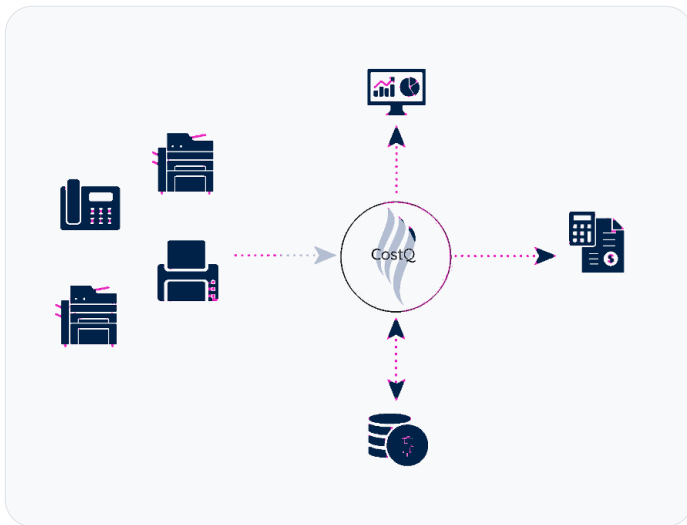

Enterprise Hosting – Fully Managed

- **True Cloud / Web Based**
Access from any browser, any device.
- **Full Server Hosting**
Infrastructure managed end-to-end.
- **Security & Backups**
Enterprise-grade disaster recovery.
